A searching attack on the system of debt-slavery in the South today as the cause of lynching and mob violence, has been given by the American Civil Liberties Union, with headquarters in New York City. The statement was made by the author, William Pickens, and secretary of the Association for the Advancement of Colored People, Dr. J. M. Smith, who declared in an address to the group in the South today in many white or black is really free publicly to speak the truth about the new problem which is being presented to be the essential truth. We have considered the grand mass and women who tell us that they are in the truth. Roger N. Baldwin, a director of the Union, pointed out the economic causes of the present Tulsa mob violence as just another demonstration of the truth of the general proposition.

Among the striking statements made by Mr. Pickens in the pamphlet are these: "Lynching and mob violence are only methods of economic repression. Lynching is most prevalent where Negro labor is most exploited; and the spread of mob-violence against colored people is the direct result of the economic situation. It is the other side directly to the efforts of the exploiting class to repress the Negro."

Where Lynching Occurs. "It is instructive to note where mob-lynching takes place. In thirty years the seven states of the Valley of the Mississippi, where the Negro is most numerous, have the least lynching. Texas, Louisiana, Mississippi, Alabama, Georgia and Florida, where the Negro is least numerous, have the most lynching. This is the difference between Georgia and East Louisiana."

JULY 3

Equalling if not surpassing his wonderfully successful performance in "The Kid," Jackie Coogan, six-year-old marvel of the screen, gives a truly delightful and refreshing characterization in the title role of "Peck's Bad Boy," which will be seen at the Olympia Theatre this Sunday.

The story was adapted to the screen from the volumes of the late George Peck. George Peck, the famous humorist, only the best portions of his books of Governor Peck have been incorporated in the screen version. After these portions were put into story form, the story itself, it is said, was revised to better suit the talents of Jackie. The new screen version shows Jackie as a real American boy who goes into many delightful scrapes, romances and other like figures in the production.

The Olympia will also show, on Sunday the serial "Eddie Polo in the South" (Universal Serial "Do or Die"). This will be the first run on Market Street.
